Designed Test Case

Community Participation

Field	Details
Test Case ID	TC-FIXMYBD-CP-01
Test Scenario	Verify that a citizen can successfully support an existing public issue.
Preconditions	1. The citizen has a registered and active account. 2. The citizen is successfully logged in to FixMyBD. 3. At least one public issue has been submitted and is visible in the issue list. 4. The selected issue has the Support/Upvote option available.
Test Steps	1. Log in to the FixMyBD system using a registered citizen account. 2. Go to the public issue list or issue browsing section. 3. Select an existing public issue from the list. 4. Open the details of the selected issue. 5. Review the issue information to confirm that it is the issue the citizen wants to support. 6. Click the Support/Upvote option. 7. Wait for the system to process the support action. 8. Check the issue page to verify that the support has been recorded and the support count/status has been updated.
Input Data	Existing public issue: Road damage in a local area
Expected Result	The system successfully records the citizen's support for the issue and updates the support/upvote count accordingly.

Field	Details
Actual Result	To be completed during test execution.
Status	Pass / Fail
Remarks	Validates the Support/Upvote functionality of the Community Participation feature.

Authority Status Management

Field	**Details**
Test Case ID	TC-FIXMYBD-ASM-01
Test Scenario	Verify that an authority can change a submitted report to the Acknowledged status.
Preconditions	1. An authorized authority account is registered and successfully logged in to FixMyBD. 2. At least one citizen-submitted report is available in the Authority Dashboard. 3. The selected report is currently in the Submitted status. 4. The authority has access to the report status management option.
Test Steps	1. Log in to the FixMyBD system using an authorized authority account. 2. Open the Authority Dashboard. 3. Go to the section containing submitted citizen reports. 4. Select a report that is currently in Submitted status. 5. Open the details of the selected report. 6. Review the report information before changing its status.

	7. Open the report status management option. 8. Change the status from Submitted to Acknowledged. 9. Save or confirm the status update. 10. Reopen or refresh the report details. 11. Verify that the report status has been successfully changed to Acknowledged.
Input Data	Current Status: Submitted New Status: Acknowledged
Expected Result	The system changes the report status from Submitted to Acknowledged successfully. The updated status is also available for tracking by the citizen.
Actual Result	To be completed during test execution.
Status	Pass / Fail
Remarks	Validates the status transition from Submitted to Acknowledged in Authority Status Management.
